Report of the Board of Control.

OFFICE OF THE BOARD OF CONTROL,
MISSISSIPPI STATE PENITENTIARY,
JACKSON, MISS., December 4, 1893. }

To His Excellency, J. M. Stone, Governor of the State of Mississippi:

SIR—Since the date of the report of the Board of Control for the years 1890 and 1891, the leasing system has been continued during the years 1892 and 1893, there having been no change made in the law on this subject by the Legislature of 1892.

All of the convicts, except a small number not exceeding on an average 125, have been leased to individuals for work on plantations and farms, and for work on levees, the larger portion of the leased convicts being worked on plantations in the Delta.

In 1892 the price per month was fixed at \$9 for the negro, and \$8 for the white convicts. In June of that year the hire was reduced to \$8 and \$7, respectively, for negro and white convicts, because of the depressed condition of finances and the low price of cotton. The contracts for 1893, however, were made at the original price. But again in June, 1893, owing to the same causes, the hire was again reduced by the Board to \$8 and \$7 per month, and all the contracts for 1893 stand on this basis. At one convict camp, composed exclusively of white convicts, the price has been uniformly \$5 per month.

WORK IN THE WALLS.

The convicts retained at Jackson, and under the direct control of the Warden and the Board of Control, as far as practicable, in view of the limited and inadequate machinery and appliances for the purpose, have been kept at work manufacturing furniture, wagons, clothing, shoes, and some other articles, for a detailed statement of which we refer you to the accompanying report of the Warden. There have been, and are, a large number of convicts in the walls who

are physically incapable of any work. They are made up of the convicts not fit to be hired out, many of whom are old and decrepit. And although there are quite a number of able-bodied convicts in the walls, yet the facilities for giving them remunerative employment are so limited that it has been impossible to work them to any advantage pecuniarily to the State.

THE FARM.

A part of the convicts retained at the prison in Jackson who are not strictly able-bodied and not strong enough to be hired to lessees, and who are not desired by lessees, have been worked during the years 1892 and 1893 upon a small tract of land near Jackson leased for this purpose by the Board. In 1892, 175 acres were cultivated, and in 1893 the amount of land was increased to 400 acres.

The net income from the farm work for the	
year 1892 was.....	\$1,353 50
And the net income for 1893 was.....	\$2,325 25
Showing a total for the two years.....	\$4,778 75

The products of the farm were valued by the Board of Appraisers appointed by the Board of Control, and the hire and maintenance of the convicts was estimated by the Warden.

This is an excellent showing for the work done by the Warden at the farm, especially in view of the fact that the convicts worked on this land were physically unfit to be hired to contractors, and were capable of only a limited amount of work. It will be seen from the Warden's account that the labor of the convicts has been charged to the farm, as well as all supplies and expenses of every kind that entered into the farm work, so that the actual net sum after paying all these expenses for the two years, including the price for the labor and maintenance of the convicts, amounts to \$4,778.75.

In a word, this convict farm has not only been self sustaining, but has yielded a net revenue as stated.

The result thus attained by the Warden demonstrates clearly the proposition that the convicts cannot only sustain themselves when worked upon lands, in agricultural pursuits, under the direct management of State officials, but that under proper management, may earn a surplus revenue for the State.

INCOME.

The net cash income for the entire Penitentiary for the year 1892 was..... \$24,010 50

And the net cash income for 1893, actually collected up to October 1, 1893, is..... \$16,656 12

These sums have been paid into the State Treasury, but they do not include collections made since October 1, 1893, nor do they include some arrearages overdue from a few lessees prior to the first of October, 1893.

For the past five years, up to October 1, 1893, the following sums have been paid into the State Treasury as the net earnings of the convicts :

For the year 1889.....	\$22,131 67
For the year 1890.....	19,000 00
For the year 1891.....	29,295 44
For the year 1892.....	24,010 50
For the year 1893.....	16,656 12

Total..... \$111,093 73

NOTE—The fiscal accounts of the year 1893 accompanying this report end on October 1, 1893, but the Board states informally in this connection that since October 1, 1893, there has been received \$21,199.11, from which, deducting the expenses since October 1, 1893, leaves the net sum of \$13,479.28. So that the entire net earnings for the five years up to December 4, 1893, is the sum of \$124,573 01. Prior to the Code of 1892 the earnings of the convicts were paid into the State Treasury as general funds of the State, but since November 1, 1892, these earnings constitute a Penitentiary fund. The report of the Treasurer of the Penitentiary shows a balance to the credit of the Penitentiary on October 1, 1893, of \$21,666.62. This does not include the earnings of the convicts since October 1, and up to the date of this report, which amounts to \$13,479.28, as above stated.

In addition to the cash earnings of the convicts, there have been a large quantity of garden and farm products raised by the convicts and a lot of brick made for the Lunatic Asylum in 1892, the details of which are given in the tables that accompany this report.

DEATH RATE.

The number of deaths in the entire prison population for the year beginning December 4, 1891, and ending December 4, 1892, was 36, showing an annual death rate of 6.29.

The number of deaths in the entire prison population from December 4th, 1892, to October 1st, 1893, was 31, showing an annual death rate of 5.43.

DEATH RATE AT STATE PRISON.

For the year 1892, there were 12 deaths at the prison. But

of these, 10 were returned from the convict camps of lessees, sick and disabled, for treatment in the prison hospital, where they died of the sickness they contracted in the convict camps. Of the two deaths attributable to the prison, one was killed attempting to escape, and after he had effected an exit from the walls. And the other came to the prison in an unhealthy condition.

Placing the prison deaths for the year 1892, at 2, the annual death, per centum, was 1.60.

For the year 1893, there was six deaths at the prison; of these four were returned sick from the convict camps of lessees, for treatment in the prison hospital and died of such sickness. Of the remaining two, one, a woman named Lula Payne, was killed by a convict, Henry Singleton. The annual death rate per centum, for 10 months of the year beginning December the 4th, 1892, and ending October 1st, 1893, for the Prison proper, was 1.92.

The above statements include all the convicts retained at Jackson, including those worked on the farm, and those worked at brick-making in 1892 for the Lunatic Asylum.

In view of the fact that numbers of the convicts come to the State prison from the county jails in a diseased condition, and the further fact that the convicts left in the walls are largely composed of those physically unfit to be hired out, and the further fact that numbers of convicts are returned each year from the convict camps of the lessees in bad condition, it will be seen that the death rate for the prison at Jackson, has been exceptionally and remarkably low. It will compare favorably in every respect with the death rate of the best managed model prisons of the United States. This result has been accomplished by direct official control of the prison at Jackson. There has been a rigid and systematic observance of all sanitary conditions and the results accomplished are entirely satisfactory. The convicts at the prison have been humanely and properly treated, and the general discipline and administration of the prison has been good.

DEATH RATE OF LEASED CONVICTS.

For the year 1892 the number of deaths for the whole number of convicts leased, (not including the convicts at the walls) was 34. Showing an annual death rate of 7.20.

For the year 1893 the number of deaths for the whole number of leased convicts was 29, up to October 1st, 1893. Showing an annual death rate of 6.21.

The death rate of the leased convicts bears unfavorable

comparison with that of the convicts under direct official control. The contrast is strongly marked.

Accompanying this report is a table showing the number of deaths, average number of convicts, and the death rate at each convict camp for 1892 and 1893. In some of the camps there have been no deaths, in others the death rate is unsatisfactory, while in others it has reached an extraordinary percentage.

With proper food, medicine, medical attention and proper treatment, the death rate of leased convicts should not be in excess, or only slightly in excess, of the death rate of the same class of farm laborers of the country.

The Board of Control, by orders, directions and inspections has used its utmost endeavors to secure the uniform proper treatment of the leased convicts, but the essential and inherent conditions of the system of convict leasing are such as to render the result highly unsatisfactory.

Within the past few years the general condition of the leased convicts has been ameliorated and improved, but the leasing system is inherently incompatible with the proper treatment of the convicts.

INCREASE OF THE PRISON POPULATION.

The number of convicts on hand December, 1889.....	543
The number on hand December, 1892; was.....	601
The increase for the year being.....	58
The number of convicts in December, 1892, was..	601
And the number on hand October 1st, 1893, as shown by this report.....	767
The increase for the year being.....	166
The total increase being.....	222

If the steady increase of the prison population, for the past two years continues for the ensuing year, there will be at the time when the State constitution requires the leasing system to cease, at least 800 convicts on the hands of the State, without any means or measures provided for their maintenance or support.

An entirely new system is required by the constitution, and the Board of Control respectfully suggests and recommends that a large body of lands should be purchased by the State adequate for the purpose of employing and working the convicts on the same at agricultural and mechanical pursuits.

CONCLUSION.

Printed with this report are tabulated statements, show-

all the details of the administration of the State Prison for the past two years, and giving the particulars of all the matters connected with the management, which may be useful to the Executive and Legislative Departments of the State government.

Board of Control.

WARDEN'S REPORT.

To the Honorable Board of Control, of the Mississippi Penitentiary:

GENTLEMEN: As Warden of the Penitentiary, I desire to make the following report of the shop, brick-yard, wood-yard, and farm, for 1892-93:

During this time all of the able-bodied convicts have been hired out, with the exception of a few, ordered kept within the walls, for work on farms and levees.

In 1892, and the first part of 1893, there was very little work done in the shop, but they are now organized, and Master Mechanic in charge, who is pushing everything, and teaching, such as are not able to do hard work, to make furniture, and I am in hopes it will not be long before the Penitentiary will be deriving a revenue from this source.

The convicts at work in the shops have made a great many improvements, both in and out of the prison wall, on the Penitentiary property. All of the fences around the gardens, yard, and the Superintendent's house, have been made new; the roofs of all the buildings repaired and painted, and brick walks laid from one building to the other.

In 1892, in accordance with an act of the Legislature requiring the convicts to make such brick as would be needed in rebuilding the burnt portion of the Mississippi Insane Asylum, at Jackson, we had made and delivered to Contractor C. M. Rubush 420,250 brick, for which the Penitentiary is entitled to a credit of \$1681.00 (\$4.00 per thousand).

After finishing the work of making brick for the Asylum, this same "squad" of men were taken to the wood-yard where they cut 250 cords of wood for the Penitentiary, and upon completing this job, there was nothing further for them to do, in or about the prison, so, such as were able-bodied, were hired out, there being very few of this kind, however, as the most of them were disabled men, not allowed to be sent away from the walls, except with the "State squad," as they could only do light work.

Some provision should be made by the Legislature, at the coming session, for caring for the convicts in case they should be returned to the walls, as we now have 767 on

hand, and the number increasing all the time, with only 200 cells for accommodating.

Attached hereto you will find statement showing the results of the work done at the farm for 1892-93.

In 1892, we were making brick for the Asylum and only had nine disabled hands, and six mules to work at the farm. In the statement below, \$9.50 per month is charged for the hire of the convicts worked at the farm, which is about the hire we get for such men (\$4.50 per month for hire and \$5 for clothing and feeding). Respectfully submitted,

M. L. JENKINS.

Warden.

Jackson, Miss., October 1, 1893.

REPORT OF CHAPLAIN.

To the Honorable Board of Control of the Mississippi Penitentiary :

GENTLEMEN: As it is customary for the Chaplain of the State Penitentiary to make an annual report of the work done among the convicts in the religious way, will give briefly, in substance, what has been going on in the prison Sunday School since the last report. Services have been held regularly every Sunday at 4 p. m. from June until October, and at 3 p. m. from October 1st till May 31st. The services consist of singing by everybody who can be induced to take part, reading of the lesson by the Chaplain, prayer, either by the Chaplain or some one of the teachers, singing again, and then the recitation of the lesson. After the lessons are finished, a discourse is preached to the convicts upon the subject of the lesson, or upon some suitable text. Singing again and dismissal is about the order of the exercises.

Since the last report quite a large supply of valuable books have been added to the prison library, making it now as valuable a library as is usually found in such institutions. The school is furnished regularly with Sunday School Quarterlies, and all the men are put into classes who can be induced to take part in the lessons. The Chaplain is ably assisted in his work by the services of three faithful Christian men, who gladly devote their Sunday afternoons to this prison work. These gentlemen are W. H. Kennon, J. W. Hale and R. J. Barbour. One of the colored convicts does valuable service also in teaching a class of his own race.

It would be unfair in this connection not to state that Miss Herriot Gaston has been performing as organist now for several months, and leading the song services, to the edification and satisfaction of all.

Since the cutting off of so many visitors to the Sunday School, the men seem to be doing better work than they did when there were so many present to detract their attention from the study of the lesson.

One hindrance to our work, which cannot, under the present regime, be avoided, is the absence of the men from their classes, after having been started and become interested. Many of them are taken to the plantations and separated from the school. With this exception everything seems to be getting along satisfactorily.

Respectfully,

M. F. HARMON, Chaplain.

JACKSON, MISS., Oct. 1, 1893.

REPORT OF PHYSICIAN,

Honorable Board of Control:

GENTLEMEN—I beg leave to submit the following report as Physician to the Penitentiary from December 4, 1891, to December 4, 1892, and from December 4, 1892, to September 30, 1893.

From December 4, 1891, to December 4, 1892, the total number of cases prescribed for were three hundred and thirty-one, and they were affected with a variety of diseases some being very slight and trivial affections, and others the gravest of maladies. Many of them were treated at the dispensary and in their cells, but the more serious cases were treated in the hospital.

Of the total number of cases (331), sixty-one (61) were received from contractors who hire the prisoners, and fifty (50) were sick when received from the county jails. Thus it will be seen that one hundred and eleven (111) of the cases did not originate in the prison walls.

I regret to have to report eleven (11) deaths in the prison walls, as follows:

January 27, 1892—E. J. Downs, intersusception.

March 15, 1892—Sam Miller, dropsy, received on February 29, 1892, from J. B. Conley's farm in a very bad condition.

April 12, 1892—James Brackett, dropsy, received on April 3 from J. Wilzinkie's, sick with the disease.

May 12, 1892—George Thomas, meningitis, received from J. G. & R. Sessions' farm in a weak and debilitated condition.

May 29, 1892—Lewis Easterlin, consumption, received from W. B. Swain's farm, April 20, 1892.

June 1, 1892—Perry Banks, consumption, received May 16, from Dulaney's farm in a hopeless condition.

June 23, 1892—Nora Perry, consumption, received from E. E. Foltz' farm February 6, 1891, sick with the disease.

June 23, 1892—Levi Cooper, old age and debility, received from R. E. Walt's camp.

October 3, 1892—Will Moseley, consumption, received from H. A. Swain's farm, April 20, sick with the disease.

October 16, 1892—Monroe Wright, consumption, received from P. W. Peeples' farm, September 28.

October 23, 1892—Lem Dismukes, consumption, received from J. S. Richardson's farm Oct. 1, sick with the disease.

It will be seen that ten of the fatal cases were brought to the penitentiary from places outside, and that only one of them, viz: E. J. Downs, originated in the prison walls, and he was received from the Warren county jail, and only six days before he died.

One other death, Jim Miller, occurred among the convicts belonging in the prison walls, but he was killed in attempting to escape after he had left the walls.

From December 4, 1892, to September 30, 1893, the total number of patients prescribed for were three hundred and eighty-three. Of this number fifty-three (53) were received from contractors, and sixty-one (61) from county jails.

It will be seen that one hundred and fourteen (114) of the cases did not originate in the prison walls. I regret to have to report six (6) deaths, as follows:

December 6, 1892—Richard Williams, consumption, received August 27, 1892, from Lee & Lee's farm, sick with the disease.

December 10, 1892—Ike Wright, lumbar abscess, received from Dulaney's farm, May 6, 1892.

March 31, 1893—Will Barnes, disease of brain, received from Worthington's farm, December 30, 1892, in a very bad condition.

May 30, 1893—Walter Willow, pyothorax, received from W. B. Swain's farm, May 6, 1893.

September 23, 1893—Sam Rule, general debility and old age, received from Worthington farm, August 11, 1892.

Lula Payne was killed by wounds inflicted with a knife in the hands of Henry Singleton, a convict, and she died in a short time after they were inflicted.

It will be seen from the list of deaths that in only one of the eighteen deaths that resulted from disease, did the disease originate in the prison walls. Most of the serious sickness we have had were the patients brought into the walls for treatment from places on the outside, and many of them were chronic cases and hopelessly sick when brought in.

The prison has been kept in excellent sanitary condition, and I have received at all times from Mr. M. L. Jenkins, the Warden, and his assistants, very courteous treatment and all necessary aid in the discharge of my duties.

I desire to thank you for your uniformly courteous treatment, and for your ready response to every demand made upon you by my department of the Penitentiary.

Very respectfully,

WIRT JOHNSTON,
Physician to the Penitentiary.
